Assists in promoting investments and defining priority sectors

2 Opportunity Mapping

Highlights opportunities for investment

3 Data Integration

Combines statistics on direct investment and national trade

4 Detailed Information

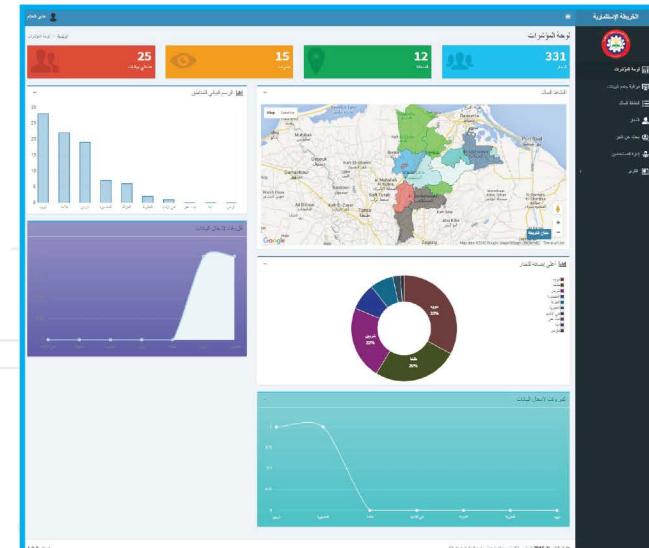

Provides details on locations, sectors, companies, and stores in Dakahlia Governorate

5 Mobile and Portal Tools

Uses a mobile app for data collection and a portal for reviewing survey outputs

6 Decision Support

Supports decision-makers with dashboards, reports, and geographic information

Projects

Digital Delmar

Sector: Business, Saudi Arabia

Duration: 18 Months

Solution: Digital Delmar is an innovative telemedicine solution developed by ITRoots, combining a smart mobile app, AI-powered medical pods, and a smart mirror. Patients can seamlessly measure vital signs—blood pressure, glucose, weight, oxygen levels—and request remote consultations via real-time video with certified doctors. The system bridges physical and digital care, transforming how healthcare is accessed, monitored, and delivered.

Clients:

Solution: The solution makes it easy to request container transportation between your factory and the ports, handling every move with efficiency and care, whether it's to the port or back to your facility.

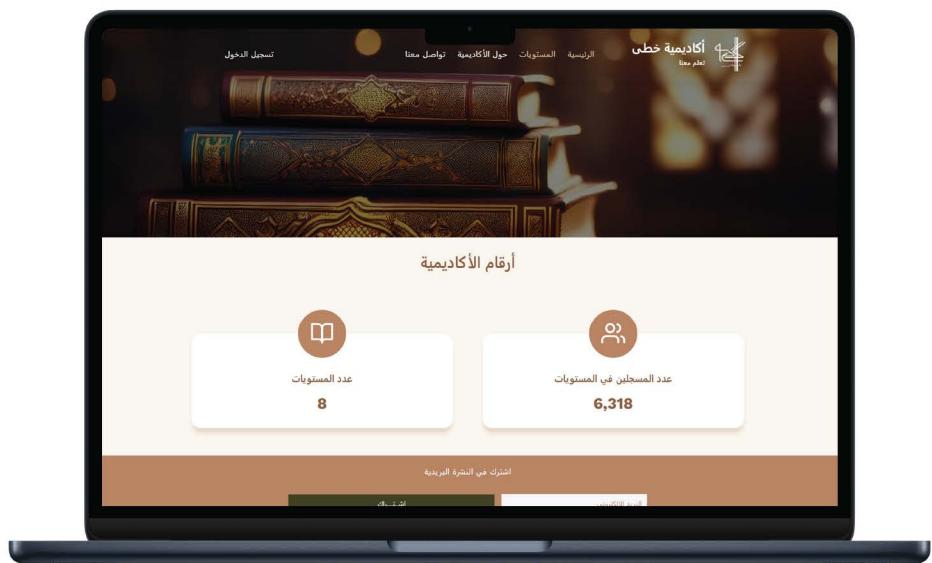

Sector: Business, Saudi Arabia

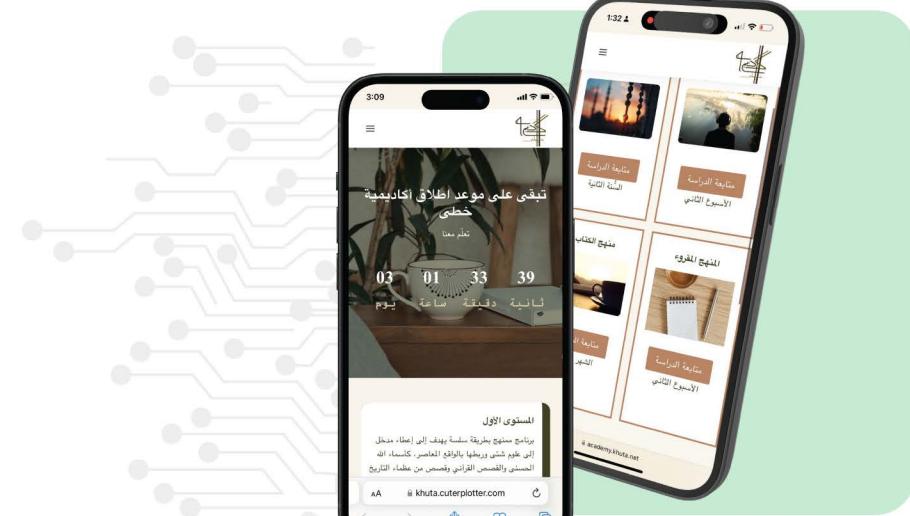

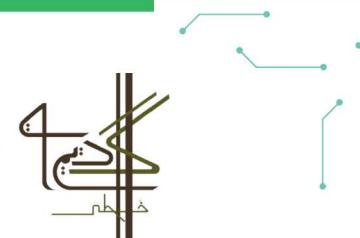

Duration: 6 Months

Solution:

Khuta Academy offers structured and accessible educational programs that connect diverse fields of Islamic knowledge—such as stories from the Qur'an, biographies of prominent figures in Islamic history, and in-depth exploration of the Qur'anic worldview.

أكاديمية خطى

Platform Features

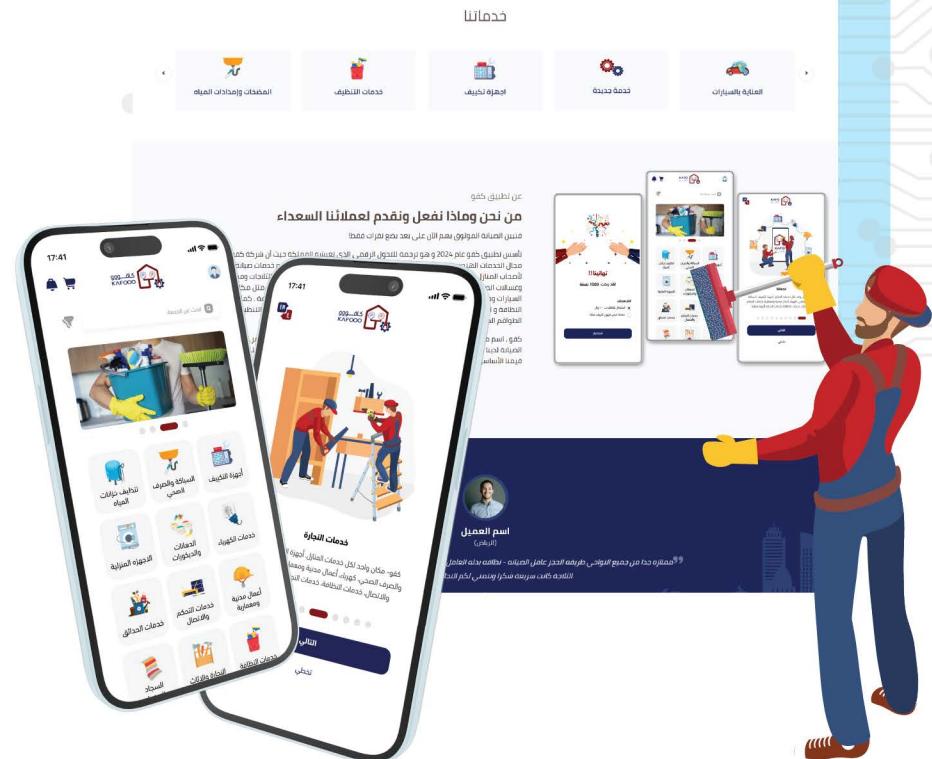

-  Interactive lessons and quizzes
-  Multimedia content delivery
-  Personalized learning experience
-  Structured course progression

 Client: Kafoo App

Sector: Business, Saudi Arabia

Duration: 6 Months

Solution: "Kafoo App" is an online platform that connects service seekers with various providers, offering ease and competitive pricing.

Arabic Coaches

 Client: Arabic Coaches App

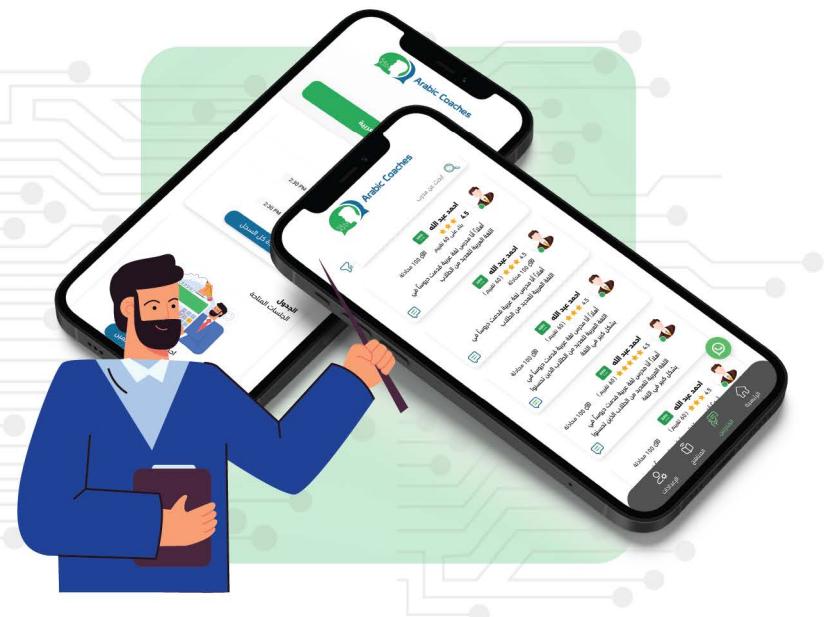

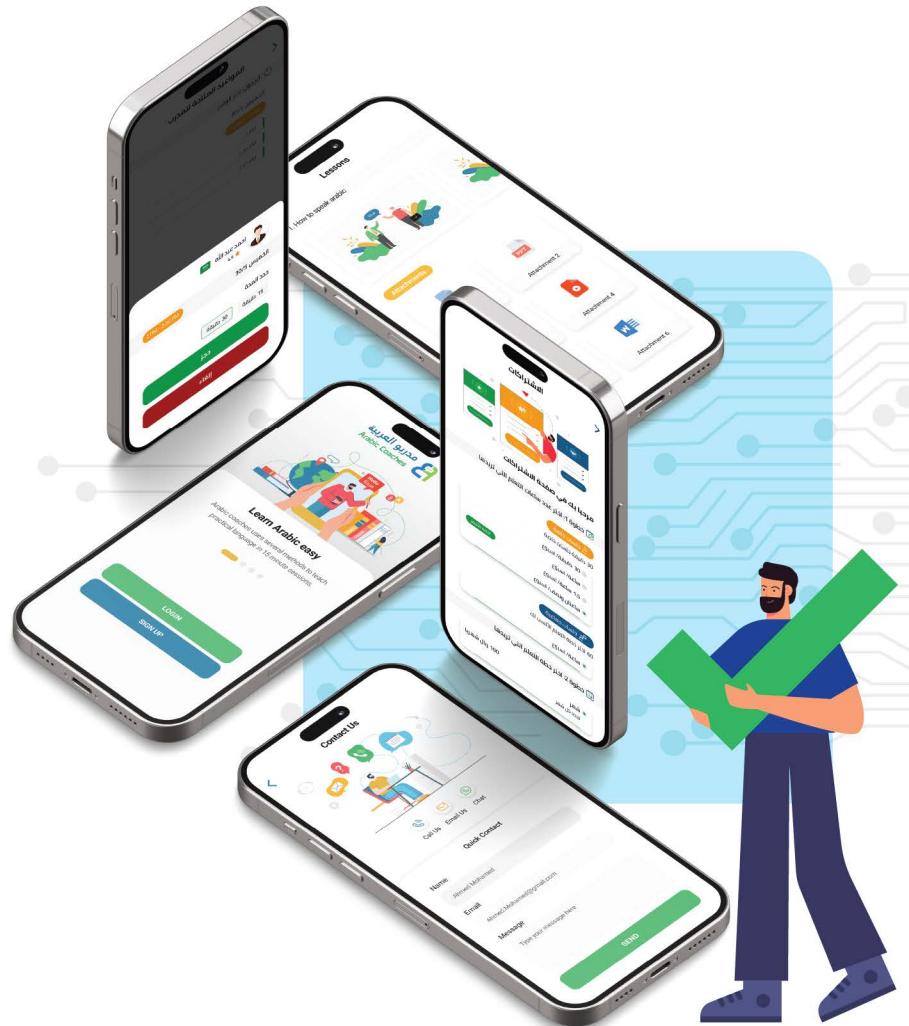

Sector: Business, Saudi Arabia

Duration: 6 Months

Solution: "Arabic Coaches" is developing an interactive system through mobile apps and a website that bridges trainers and trainees. Our goal is to offer a more accessible and efficient platform for teaching the Arabic language to non-native speakers.

Arabic Coaches

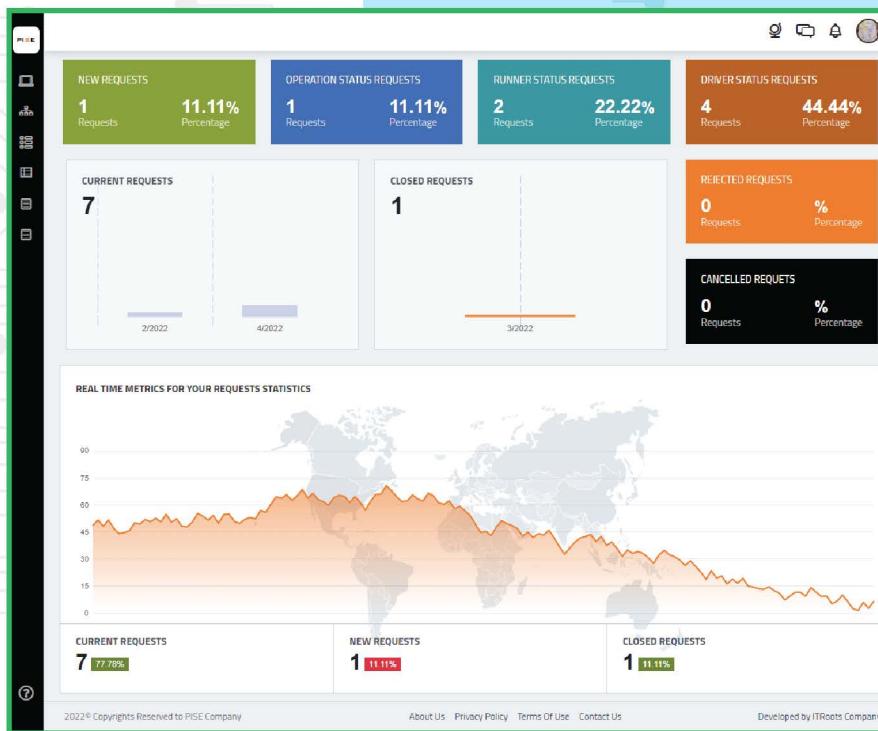

InlandLogistics Application

 **Clients:** MAERSK (PISE sister company)

Sector: Business, Egypt

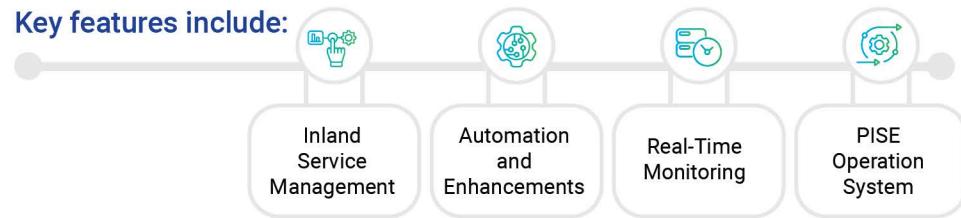

Duration: 18 Months

MAERSK

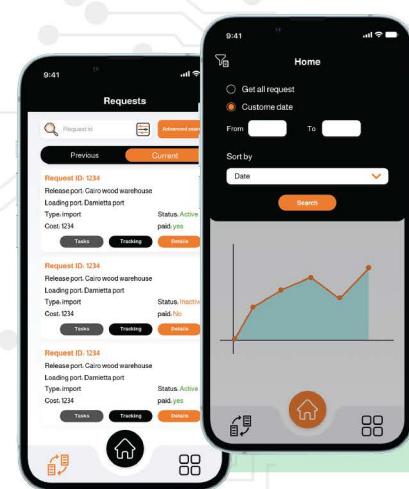

Solution: The solution aims to streamline end-to-end product delivery through a unified platform that integrates robust inland transportation services.

Key features include:

Intelligent Features:

- 1 Control Tower Dashboard
- 2 Driver Behavior Management
- 3 Route Optimization
- 4 Custom Mapping
- 5 GPS Vehicle Tracking

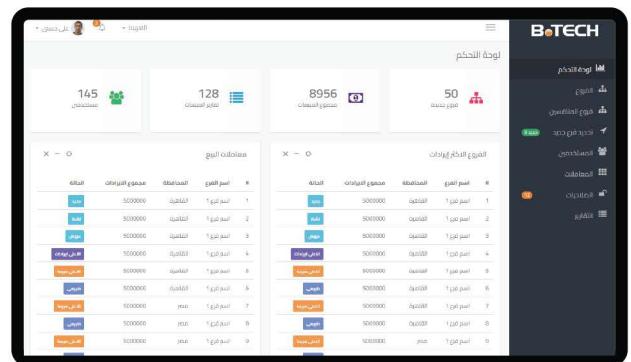

B.Tech Smart Maps

 Client: B.Tech

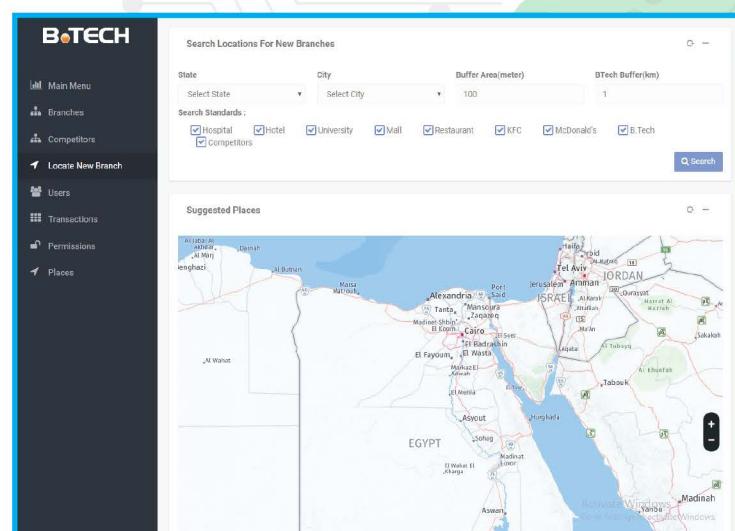

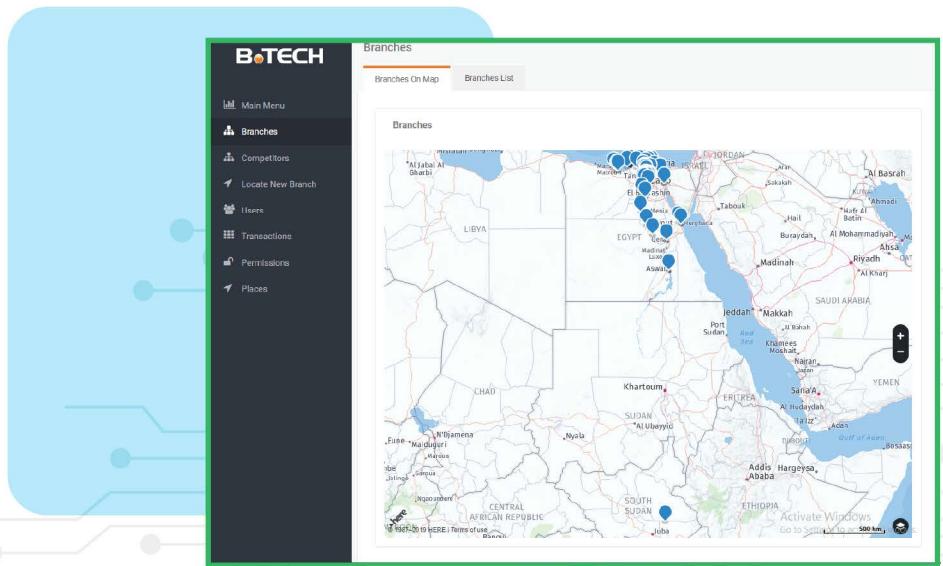

Sector: Business, Egypt

Duration: 3 Months

Solution: The system aims to identify the best locations for new B.Tech branches. It displays B.Tech branches on a map, along with their transactions and contact information, and compares them with competitors' data to aid in decision-making.
